

We need some testing of Seeklight's prompt and its impact on generated metadata, if any. Results of two "prompted" analysis are held in the "mapped-metadata-Rev-2" directory.

Developmental Dilemmas

New metadata generation around "Developmental Dilemmas: The Role of Power and Agency" was run using this prompt:

```
This is a digitized PDF copy of a print book with supplemental appendices
(in the digital edition only). The book by Grinnell College faculty member
William D. Ferguson is titled "Developmental Dilemmas: The Role of Power
and Agency". It is part of the Digital Grinnell Faculty Scholarship
collection.
```

The result is /Users/mcfatem/GitHub/LAMP/sample-objects/seeklight-metadata-Rev-2/New_LAMP_628632.csv, and the corresponding .xlsx file.

Copilot comparison of the old versus new metadata points out these differences:

```
Let me read both files to compare them:

Read [](file:///Users/mcfatem/GitHub/LAMP/sample-objects/seeklight-
metadata-Rev-2/New_LAMP_628632.csv)

Read [](file:///Users/mcfatem/GitHub/LAMP/sample-objects/seeklight-
metadata-Rev-1/New_LAMP_628302.csv#1-1), lines 1 to 1

Read [](file:///Users/mcfatem/GitHub/LAMP/sample-objects/seeklight-
metadata-Rev-1/New_LAMP_628302.csv#4-4), lines 4 to 4

Here's a detailed comparison of the **"Developmental Dilemmas"** record
between Rev-2 and Rev-1 (row 4):

## Key Differences

| Field | Rev-2 (New_LAMP_628632.csv) | Rev-1 (New_LAMP_628302.csv - Row 4) |
|-----|-----|-----|
| **SSID** | 42358758 | 42356814 |
| **Description** | "examining why developmental policies often fail,
focusing on the roles of power, agency, and collective-action problems..."
| "analyzing why developmental policies often fail, focusing on the
interplay of power, agency, and institutional evolution..." |
| **Subject** | Development economics \| Economic development \| Power
resources \| Institution building \| Collective behavior \| Leadership \|
Corruption | Development economics \| Corruption \| Power resources \|
```

```

Leadership \ | Institutional economics \ | Collective behavior \ | Political
corruption |
| **Type** | Book | Monograph |
| **Coverage (culture)** | American | Global |
| **Format (medium)** | paper | Digital text |
| **Format (technique)** | printed | typed |
| **Format (material)** | paper | PDF file |
| **Publisher** | Cambridge University Press | Cambridge University Press
\ | UNU-WIDER |
| **Named Entities** | ...University of Cambridge... (added) | (not
present) |
| **Keywords** | ...social identity \ | ...developmental policy... |
...social identities \ | ...inclusive development... |
| **Media URL** | .../42358758/... | .../42356814/... |

```

Summary

The two records describe the same book but with notable differences:

1. **Different SSIDs** – Suggesting these are separate Seeklight processing runs
2. **Physical vs Digital** – Rev-2 describes it as a physical paper book, Rev-1 as a digital PDF
3. **Type terminology** – "Book" vs "Monograph"
4. **Culture scope** – "American" vs "Global"
5. **Description variations** – Slight rewording with similar content
6. **Subject terms** – Different controlled vocabulary choices ("Economic development" vs "Institutional economics", "Corruption" vs "Political corruption")
7. **Publisher** – Rev-2 omits "UNU-WIDER" co-publisher
8. **Named Entities** – Rev-2 adds "University of Cambridge"

These differences suggest Rev-2 may be a revised/reprocessed metadata export with updated or corrected field values.

Stewart Public Library

New metadata generation around the "Stewart Public Library" postcard was run using this prompt:

This is a postcard from the Digital Grinnell Ivan Sheets Postcard Collection and is related to the Poweshiek History Preservation Project, and Drake Community Library (Grinnell, Iowa) Archives. The verso side of the card appears to be an invitation to an anniversary event in the library in May 1977.

The result is /Users/mcfatem/GitHub/LAMP/sample-objects/seeklight-metadata-Rev-2/New_LAMP_628665.csv, and the corresponding .xlsx file.

Copilot comparison of the old versus new metadata points out these differences:

Read [(file:///Users/mcfatem/GitHub/LAMP/sample-objects/seeklight-metadata-Rev-2/New_LAMP_628665.csv)]

Read [(file:///Users/mcfatem/GitHub/LAMP/sample-objects/seeklight-metadata-Rev-1/New_LAMP_628302.csv#5-5), lines 5 to 5]

Here's a detailed comparison of the **"Stewart Library 75th Anniversary Invitation"** record between Rev-2 and Rev-1 (row 5):

Key Differences

Field	Rev-2 (New_LAMP_628665.csv)	Rev-1 (New_LAMP_628302.csv - Row 5)
SSID	42358859	42356813
Title	Seventy-Fifth Anniversary Invitation for Stewart Library	Seventy-Fifth Anniversary Invitation for Stewart Library, Grinnell, Iowa
Description	"Invitation postcard from Stewart Library in Grinnell, Iowa, announcing its seventy-fifth anniversary...The event was scheduled for May 15, 1977."	"Invitation to the seventy-fifth anniversary ceremonies...The document includes a black and white halftone image of the Stewart Public Library building, with a caption noting its dedication on May 9, 1902."
Subject	Anniversaries \ Library sites \ Illustrators \ Special events \ Piano trios \ Community life \ Open admission	Anniversaries \ Library buildings \ Art exhibition audiences \ Illustrators \ Piano trios \ Exhibitions
Type	Postcard	Invitation
Coverage (style)	invitation	commemorative print
Coverage (location)	Grinnell, Iowa	Grinnell, Iowa, United States
Format (medium)	paper	printed paper
Format (technique)	printed	halftone printing and letterpress
Format (material)	cardstock	ink on paper
Format (measurements)	N/A	Unknown
Named Entities	Stewart Library \ Grinnell, Iowa \ Lloyd Herfindahl \ Mirecourt Trio	Stewart Library \ Grinnell \ Iowa \ Lloyd Herfindahl \ Mirecourt Trio
Keywords	library anniversary \ Stewart Library \ Grinnell Iowa \ ... \ community events \ open house	Stewart Library \ Grinnell \ Iowa \ anniversary \ open house \ art exhibition \ ...
Media URL	.../42358859/...	.../42356813/...

Summary

Both records describe the same physical item (the Stewart Library 75th anniversary invitation) but with significant differences:

- **Different SSIDs**** – Different Seeklight processing runs
- **Title**** – Rev-2 omits "Grinnell, Iowa" from title
- **Type classification**** – "Postcard" vs "Invitation"

4. ****Style**** – "invitation" vs "commemorative print"
5. ****Description focus**** – Rev-2 describes it as a postcard announcing the event; Rev-1 mentions the halftone image and 1902 dedication date
6. ****Subject terms**** – Different controlled vocabulary:
 - Rev-2: "Library sites", "Special events", "Community life", "Open admission"
 - Rev-1: "Library buildings", "Art exhibition audiences", "Exhibitions"
7. ****Format specificity**** – Rev-1 more detailed ("halftone printing and letterpress") vs Rev-2 generic ("printed")
8. ****Material**** – "cardstock" vs "ink on paper"
9. ****Location format**** – Rev-2 uses comma format "Grinnell, Iowa"; Rev-1 separates with pipes and adds "United States"

Rev-2 appears to characterize this more as a postcard-style invitation with community focus, while Rev-1 emphasizes the commemorative/exhibition nature with more technical printing details.
